

**Facepoint**®  
Picture intelligence

Paris, Mai 2018

---

Facepoint is a startup founded in November 2017. The company is specialized in Crimetech and risk analysis subjects for compliance purposes. Facepoint has created a global biometric database of heightened risk individuals and entities subjected to increased scrutiny in the context of the fight against money laundering and terrorist financing.

**Facepoint is looking for a CONTENT MANAGER in its head office in Paris.**

Contrat term :

- Permanent contract

Job description :

- The content manager within Facepoint is responsible for implementing the content, collection and data processing policy. The candidate is an experienced professional in the fields of information (intelligence, journalism, economic intelligence) with a detailed knowledge of issues related to the fight against money laundering and terrorism financing. The candidate will have to master the various international sanctions and embargoes regimes.
- The candidate must have a thorough knowledge of the compliance field and more generally master public sources of information. Indeed, a strong "content" expertise and OSINT/Webint is required.

Required profile :

- Perfect knowledge of English, spoken and written (international experience is highly preferable)
- Creativeness, curiosity, discipline and organization, autonomy
- Detailed knowledge of data provider and "Compliance" software solutions
- Passionate by the web and new technologies

Salary :

- Depending on the competency profile
